

# DROUGHT STAR™

## KENTUCKY BLUEGRASS SOD SEED BLEND

### DESCRIPTION

DROUGHT STAR™ Sod Bluegrass Blend is designed for the sod producer whose customers demand better drought performance and better recovery from harsh summer conditions. DROUGHT STAR is a low-cut bluegrass formulation and includes our vigorous rhizome producing Texas x Kentucky hybrid Kentucky Bluegrass. DROUGHT STAR has the heat tolerance potential to push the use of Kentucky Bluegrass farther south in the transition zone, and adds summer performance to traditional Kentucky Bluegrass regions.

### FORMULA

Example:

1/3 Midnight Type KBG

1/3 Elite Hybrid KBG

1/3 SPF 30 TX x KY KBG

\*ask for current or custom formulations
