

FAIRMONT

Chewings Fescue

DESCRIPTION

With outstanding overall turfgrass quality, Fairmont is performing at or near the top in national fine fescue trials. Featuring excellent drought tolerance, improved wear tolerance and improved recovery, Fairmont is well-suited for a wide range of applications. Use in low-input lawn and roughs mixtures, with bentgrass for tees and fairways, and as a nurse in naturalized no-mow areas.

APPLICATIONS

Low maintenance and shady turf mixtures, golf course roughs, tees & fairways.

FEATURES & BENEFITS

Low Mow Tolerant, Low Input, Shade Tolerant

AREA OF ADAPTATION

Cool-season and Transition Zones.

SEEDS PER POUND (APPROXIMATE)

350,000

SEEDING RATE (POUNDS/ACRE)

150 - 300
