

FULTS II

ALKALAGRASS

Puccinellia distans

DESCRIPTION

Fults II Alkalagrass has many applications in turf, reclamation and native & naturalized sites where saline conditions occur. Fults II is a cool-season bunch grass with 5 times the salt tolerance of Kentucky Bluegrass. Fults II resembles fine fescue in appearance, but in addition to its salt tolerance, it differs as it persists in sunny locations, moist soils, and is not competitive in shade. It is a low maintenance grass that requires minimal fertility and can tolerate a range of mowing heights and mowing frequency.

APPLICATIONS

Fults II is a very versatile product which can be mown at a height of ½ inch for dense and upright fairways with exceptional playability, or can be mown to 2 inches for use in golf course roughs or landscapes and home lawns. Fults II mixes very well with fine fescues and bluegrasses for an extra fine turf. Fults II can also be left un-mown for aesthetic effects as a native grass in deep roughs and waste areas or for roadside use. Fults II is a low-growing bunch-type grass. Maximum un-mown height is between 12" and 16". Plants are leafy and the leaves are narrow. Seed heads are semi-prostrate, feathery and have a pleasant tan appearance. The turfgrass color is dark green which becomes more rich on alkaline soils

GEOGRAPHICAL ADAPTATION

Adapted to the cool season zone and transition zone including higher elevations of the southeast, as well as arid regions with a minimum of 16" of annual rainfall per year.

SEEDS PER POUND

@1.75 MM

FEATURES & BENEFITS

- Ideal for fairways, roughs and landscapes with saline and high pH native soils
- Excellent salt and high pH tolerance
- Perennial, non-creeping variety with excellent turf quality
- Dark green color and good density
- Ideal adaptation where low quality effluent or reclaimed water is used
- Excellent for roadside stabilization and ground cover wherever a salt hazard exists

PRODUCTION AREAS

Pacific Northwest

RATE*

Over-seeding 1-3 lbs./1,000 ft².

New Seeding 2-4 lbs./1,000 ft².
