

the new standard in high density turf

VITALITY HD SPORTS 2.0™ is high density turf with a superb fibrous root system that is credited to Hampton (*The Root Monster*) and a diverse formulation of *SUPER ELITE* high performance Kentucky bluegrasses. VITALITY HD SPORTS 2.0 produces extreme wear and traffic tolerant turf that is fast to recover from hard play and its superior genetics build a remarkable advantage over summer patch and other diseases. With early spring green up and extended fall color, plus full sun and stadium shade performance, VITALITY HD SPORTS 2.0 outperforms other blends on cleated sports fields due to the synergy created with superior varieties in this heavy duty Kentucky bluegrass blend.

VITALITY HD SPORTS 2.0

Strengths

Develops a deep and fibrous root system is the advantage for fast turf recovery from traffic damage and drought stress.

Wear

Superior wear and traffic tolerance that withstands the abuse of cleated traffic with minimal damage and fast recovery.

Color

Super Elite varieties selected for uniform dark green genetic color for season long performance. Early spring green up provides heavy duty turf for spring sports. Excellent color/growth produces heavy duty turf through the summer and fall seasons.

Performance

VITALITY HD Sports 2.0 is agronomically formulated for heavy duty performance. No weak varieties, which would erode performance, are ever used to blend down the cost.

Uses

High performance sports fields

Texture

Fine blade, dark green color, high density turf

Mowing Heights

0.50" to 2.5" depending on management

Enhanced with:
