

WOODALL

Chewings Fescue

Festuca rubra spp.comutata

DESCRIPTION

WOODALL is our newest improved, and lower growing fine fescue. With outstanding qualities, Woodall is adapted for low input turf, sun or shade mixtures, as well as tee & fairway use.

APPLICATIONS

Excellent for use in low input mixtures and blends requiring reduced fertilizer, irrigation and mowing, saving time and money.

Excels in Sun & Shade mixtures for lawn and golf course rough use.

Excellent for close cut tee and fairway over-seeding, divot mixes, as well as bent/fescue turf.

GEOGRAPHICAL ADAPTATION

Adapted to the cool season zone and transition zone as well as arid regions.

SEEDS PER POUND

@365,000

PRODUCTION AREAS

Pacific Northwest

RATE*

Overseeding 3-4 lbs /1,000 ft²

New Seeding 5-6 lbs /1,000 ft²

*local conditions vary and dictate rates

FEATURES & BENEFITS

- DEPENDIBLE, BROAD GENETIC & ADAPTIVE
- Excellent for both low & high maintenance
- Strong seedling vigor and establishment-excellent for over-seeding
- Contains endophytes for improved insect resistance
- Handles minimal mowing and reduced fertilizer, with reduced mowing in low input turf
- Performs under tee & fairway maintenance.
- Dense, Fine & brilliant colored turf
- Developed and Tested in the Transition Zone.

Woodall Chewings Fescue was named in honor of the late Don Woodall, A career seedsman, friend, and colleague of many in the green industry, Don's passion was solving grassing challenges with low input cultivars.

-We think he would approve of this selection.
