

# TURF PRODUCERS' SELECT™

*"seed with confidence"*

## ABOUT TURF PRODUCERS' SELECT™

In the sod industry, we believe that quality assurance is of equal importance to genetic integrity and performance. With Turf Producers' Select, we hold our sod seed products to the highest quality standards. We identify with the turf producer's business, and prescribe quality blends and mixtures with integrity. Once varieties are selected and formulations are designed, we look beyond the tag of each lot and dig deep into the history and data collected to ensure mechanical cleanliness. Before qualifying a lot for use in a sod formulation, we analyze all test reports and even consider region, grower and field history information.

## TURF PRODUCERS' SELECT QUALITY

TPS™ sod formulations are produced in blending facilities maintained for sod seed. The machinery is thoroughly cleaned and inspected between batches, and separate equipment is used for sod Bluegrass or sod Tall Fescue seed. TPS Sod Quality Assurance continues through shipment as each pallet of sod seed is wrapped and segregated on the truck to further protect against potential cross contamination. TPS's attention to detail is second to none.

## ✓ LARRY HUMPHREYS APPROVED

Larry grew up on a farm in Southwest Ohio and has a B.S. in Soils Science from Ohio State University. In 1969, he began his career with The Scotts Co. as a Sod Marketing Specialist. Larry has over 40 years of experience and service working directly with sod producers on seed selection and turf management. Today, Larry is the leader of Landmark's TPS Sod Seed service where he continues to inspect and approve seed components, and formulates TPS blends and mixtures to exceed the expectations of turfgrass sod producers.
